A word about us

As you see, the recent AGM has brought about changes in the committee. I have been given the job of president for the next 12 months so this is the appropriate time to pay due and proper respect to Joan Daniels who stepped into the job when the club was under pressure for its very survival. I hope she won't mind if I use the word 'veteran' referring to her nearly 20 years of active involvement in the club through its many changes and ups and downs. Also, a warm welcome to Jan Fawaz, Doreen Parsons and Ben Law who have stepped up to help as we progress.

What comes next? Nothing sudden or too radical I assure you BUT we have to look hard at the club's future and changes may well follow – may well have to follow if we are to maintain what is an institution in the Tweed Valley, Northern Rivers and S.E Queensland.

Two years ago we were forced to look into the black hole, the end, the collapse of this club. Since then, the committee that was formed in the midst of that trauma, has succeeded in stemming the haemorrhage – but first aid, not a cure. To go ahead now is just as big a challenge as all members faced at that time – but now it's a rebuilding task not just urgent repairs.

So, a big welcome to the refreshed team. We will be doing everything in our power to rebuild our club, aiming to regain as much of its former glory as possible. Times have changed since those halcyon days but your team will strive 110% to recover every little bit we can. The committee will need your help, your views, and your ideas on this next leg of the journey.

You, the members, are the club. There is nothing else. No physical, tangible, assets to be counted and listed. Just you – just all of us.

David Lintern
President

The Murwillumbarbarians are back for the last gig of the year, our Christmas Party. The Murwillumbarbarians have been playing for over ten years at festivals, conventions and venues, both locally and across Australia.

Although the line up changes from time to time, the band play trad jazz with passion and enthusiasm. They are always entertaining, good fun and guaranteed to keep your toes tapping and a smile on your face.

The band features Bob Fawaz on trumpet, Peter McHutchison on reeds, Harley Axford on trombone and vocals, Col Hobson on banjo, Mike Murray on bass and vocals, Bruce Worrell on Tuba and Bass and Tab Paenga on sax and trombone. **Bookings are essential as table will fill up the Bowlo Phone: 6672 2238**

Calling all musician members.

A reminder and invitation to any member who plays an instrument, or can sing, that our Early Birds band is an informal platform for a jam session. It is an unpaid group of members motivated purely by a shared love of music – any music with rhythm and swing. The composition of the band varies according to who puts up their hand. A bit rusty? Not to worry. Blow the worst out at home then come along and be drawn into the spirit at the club. Just joining in lifts you anyway and you are truly helping the club. Ours is a friendly environment and your involvement will be appreciated. Contact any committee member.

COME ON DOWN!

HO! HO! HO! MERRY CHRISTMAS TO ALL OUR GUESTS, MEMBERS, SPONSORS, PERFORMERS, & COMMITTEE THROUGHOUT THE YEAR.

BE SAFE AND WE WILL SEE YOU ALL IN THE NEW YEAR. THANK YOU ALL THAT MAKE THE CLUB SURVIVE.

David's Musings!

How amazing is music?! 19th century Austrian philosopher Friedrich Nietzsche is quoted as saying "without music, life would be a mistake". Over 2000 years ago Pythagoras created a mathematical theorem to explain the relationship of musical sounds to each other. The result has been the realisation that musical notes could be arranged within a logical framework, in varying orders and tempos, at will. In skilled hands these notes can generate an extraordinary range of emotions in the listener. Over thousands of years, composers have used this facility to arrange and rearrange notes and tempos in what seems to be an infinite number of variations. Exactly the same individual notes have been used by Mozart, Duke Ellington, Vivaldi, Louis Armstrong, Beethoven, and Bach et al – right throughout musical history. Those sequences can be used to induce pleasure, sadness, contentment, even aggression – all and any human emotion. Jazz fits into this picture perfectly through the instant rearranging of those same notes, now at the will of the creative instrument player. Starting with the sequence originally written out, the jazz musician reworks the order of those notes, within a framework, a sequence, actively composing a revised version of the original. This version may never be repeated throughout all time as it is not written down. Only modern recording technology could allow another musician to copy that solo – which they would never do of course. From mathematics to beautiful sound. From ancient Greece to Tweed Valley Jazz Club – quite a journey.
